

ELLA BALL

Community and Welfare Candidate

Hi, I'm Ella Ball and I am a final year illustration student with type 1 diabetes and autism! I love indie animation, colourful clothes and of course art! I would love to assist in making beneficial changes and organising exciting events across the university with all of you at the centre. Across my 3 years at NUA I have enjoyed my time as a student rep and student Ambassador, I hope to continue being a part of the university and making positive impacts on students' university experiences. As a student president I hope to:

Feedback

- Develop an online suggestion and feedback box, where students can suggest events, activities or provide constructive feedback anonymously
- Keep students up to date on how the university addresses the developing issue of AI
- Work closely with liberation officers to ensure students feel represented and comfortable at university

Organise

- Improve booking systems for events and workshops
- Offer more workshops that allow you to learn a new technical skill
- Offer necessary materials to be used within the university

Communicate

- Improve connectivity between the SU, students and Staff
- Make all the resources available to students clear and listed for ease of access
- Share information about job opportunities and events across courses to make accessible to all students

Socialise

- Improve social spaces to be more decorative, comfortable and accessible
- Assist individual courses with implementing timetabled student socials for all year groups
- Hold more events involving creative activities and local businesses

FOCUS
