

Hello my name is Isaac Noel, I am a Foundation going into First year Graphic Design student and the previous foundation year part time officer; I have enjoyed my time in my previous position beyond measure and would love to continue helping further into my university career by becoming the part time officer for 1st year.

My main policies are discussion with any problems that are brought to me being a big fan of personal privacy and also working to bring our university closer together through events encouraging collaboration.

If you were satisfied with my work previously I'd love to continue to serve the student body in an official capacity.
