

LGBTQ+ MANIFESTO

Pride should be more than just a month- it should be something the university feels every day. As LGBTQ+ officer, I will fight for stronger representation, support, safer spaces and a louder LGBTQ+ voice in every decision that affects us. I want to build a community where everyone feels visible and confident being themselves, where diversity is celebrated, and where no one feels invisible or unsupported. I will organise inclusive events, promote awareness, and push for real action on equality and inclusion. Most importantly, I will listen and stand up for our community. Together we can turn pride into progress and make our space truly inclusive for everyone.
